

Rödl & Partner among diversity and inclusion leaders in Poland

We have been honoured to be on the list of the most progressive employers in Poland in the area of diversity and inclusion – Diversity IN Check 2024. The list has been prepared on the basis of a survey by the Responsible Business Forum (*Forum Odpowiedzialnego Biznesu*) assessing the organizations' DEI maturity (Diversity, Equity & Inclusion).

This year's edition has boasted a record number of 104 applying employers, and 75 firms have made the list. Renata Kabas-Komorniczak accepted the distinction on behalf of Rödl & Partner during a conference summarizing the Diversity Month on 27 May 2025 in the Museum of Modern Art in Warsaw.

This title results from many measures taken in our organisation – from creating an equal and safe work environment, to preventing discrimination and workplace bullying to education and promoting internal commitment. We also signed the Diversity Chart (*Karta Różnorodności*) in 2020, and DEI is an integral part of our organisational culture.

We would like to thank our HR department for consistent implementation of DEI measures as well as all those who create a culture based on mutual respect and commitment.

The list of employers who are most advanced in the management of diversity and inclusion in Poland is available on the [website of the Diversity Chart of the Responsible Business Forum](#).
