

Rödl & Partner

Rödl & Partner recognised in The Legal 500 – Energy And Natural Resources

Rödl & Partner has been recognised in The Legal 500 international ranking for Europe, Middle East and Africa (EMEA) in the Energy And Natural Resources category.

Rödl & Partner's energy consultancy team led by Piotr Mrowiec, which supports investors in renewable energy projects, has been awarded in the Energy and Natural Resources category. Among the key lawyers working in this area, Jagna Bronk was honourably mentioned together with Piotr Mrowiec. The team actively supports investors from Poland and abroad at all stages of their RES projects. They advise on, among other things, project development, due diligence, transactional support, and obtaining financing.

The Polish RES market develops rapidly and shows ever-growing potential. After years of focusing on coal, the lawmakers have finally made a strategic decision to overhaul the Polish energy industry. Advising on this area is not only our daily business, but also gives a tremendous satisfaction from working with clients, especially when we receive such a prestigious award, points out Piotr Mrowiec, attorney at law and Associate Partner at Rödl & Partner.

Continuous growth in the area of RES consulting, fits perfectly in the Rödl & Partner's ESG-compliant business strategy. Handling sustainability and climate change-related cases is already a key part of Rödl & Partner's legal practice.

The Legal 500 is a ranking with more than 30 years of tradition, which each year selects the best law firms and outstanding lawyers. The results of the ranking can be found on the Legal 500 website.

Rödl & Partner is an international firm providing integrated professional services in the area of audit, Business Process Outsourcing, tax, law, and business consulting.
