Rödl & Partner again honourably mentioned in The Legal 500 ranking

Rödl & Partner has been once again honourably mentioned in The Legal 500 international ranking for Europe, Middle East and Africa (EMEA) in the Energy and Natural Resources category.

Rödl & Partner's energy consultancy team led by associate partner and attorney at law Piotr Mrowiec, which supports investors in renewable energy projects, has been awarded in the Energy and Natural Resources category. In addition to Piotr Mrowiec, the key lawyers in that area are: attorney at law and manager Jagna Bronk and senior associate, tax adviser and attorney at law Jakub Wajs.

The team actively supports investors from Poland and abroad at all stages of their RES projects. It is involved, among other things: in developing wind farm projects, large-scale photovoltaic farms, biogas plants, conducting due diligence, transaction support, negotiating EPC and O&M contracts, representing clients in contacts and disputes with power grid operators, before President of the Energy Regulatory Office (ERO).

The RES market in Poland is rapidly growing and we are proud to support investors at every stage of their projects. Our work not only contributes to the development of the energy sector and a significant reduction in the carbon footprint of our economy but also makes us feel satisfied with high-quality relations with our clients and continuous improvement of our RES services, says Piotr Mrowiec.
